

Master of Business Administration (Material)

M.B.A. Materials Management or Master of Business Administration in Materials Management is a postgraduate Material Science and Management course. Master of Business Administration is one the most sought after courses which can be attained by students of any stream. Materials management can deal with campus planning and building design for the movement of materials, or with logistics that deal with the tangible components of a supply chain. The duration of M.B.A. in Materials Management is normally a two years program with two or more semesters but time duration may differ from institute to institute and also may be on part time basis by certain institutes.
