Post Graduate Diploma In Electrical Engineering

Description

The diploma in electrical engineering is one year duration and is designed to prepare students to become efficient professionals in the field and face challenges. The course creates a pathway to students to make career in electrical field and develop their professional growth. The intensive study course equips the students to understand the in-depth concept of electrical engineering and transfer them into every day situations. Training provides them to enhance their theoretical knowledge and practical experiences to find solution for trouble shooting issues in the relevant areas. Learning process involves in comprehending the knowledge of roles and responsibilities of an electrical engineer.

Course Content

- The design of Electrical Systems deals
- Power System
- Electrical Machines
- Control systems & Automation
- Microprocessors
- Power Electronics
- Digital Signal Processing and telecommunications
