## P.G. Diploma in Dietetics and Hospital Food Services

### Description

P.G. Diploma in Dietetics and Hospital Food Services PG Diploma in Clinical Nutrition & Dietetics is a 2-year post-graduation course which comes under the field of home science. The course focuses on the study of human physiology and nutrients that are required by the body. In order to be eligible to apply for this course, the candidate should have a bachelor's degree preferably in the related field from a recognised university. The admission process will be based on the candidate's performance in the qualifying exam or any personal interview conducted by the college. PG Diploma in Clinical Nutrition & Dietetics aims to equip the students with the ability to create a diet plan for one or a group of patients and help them in maintaining their health. The course helps the student to understand how to use nutrition to manage and treat various diseases.
